

renderPRO¹²

Personal Rendering Option

Purpose-built desk side/desk top renderer powers render intensive 3D graphics, animation, and compositing workflows

Ideal for space-constrained environments, quiet and compact renderPRO¹² is the personal render farm that sits at your desk or fits on top of your workstation (or anywhere with a network connection)

Professional grade performance from quad core Intel® Xeon® 5600 Series processors

renderPRO¹² requires only networking and power. IPMI 2.0 technology featuring KVM over IP enables the industry's most efficient and flexible management of your render farm network
