

Autodesk® MotionBuilder

Optimize your Autodesk MotionBuilder software with Autodesk Subscription with Gold Support

Autodesk MotionBuilder

Autodesk® MotionBuilder® software is the industry-leading, real-time 3D animation solution for games, film, and television productions. With interactive, real-time workflows at its core, Autodesk MotionBuilder enables creative and technical artists to take on the most demanding, animation-intensive projects. Designed for 3D data acquisition, manipulation, and visualization, means it's both an animation productivity solution, and a tool that drives the iterative creative process. Available for Windows® XP and Windows Vista® operating systems, MotionBuilder supports the platform-independent Autodesk® FBX® data exchange solution which ensures interoperability with other applications that support FBX.

Autodesk Subscription with Gold Support

Enjoy the latest release of Autodesk software, incremental product enhancements, exclusive license terms and self-paced training – all available exclusively to Subscription members. With Autodesk Subscription with Gold Support, you'll benefit from a range of community resources including web and telephone support direct from Autodesk technical experts.

Thinking of buying the latest release of Autodesk MotionBuilder? Before you finalize your decision, consider the benefits of adding Autodesk Subscription with Gold Support to your Autodesk MotionBuilder software license. Autodesk Subscription with Gold Support helps you stay up-to-date with the latest release in a cost-effective way, while maximizing your productivity because you get access to technical experts to help you with production-related challenges.

Specifically, you'll enjoy:

Software Upgrades

Automatic and worry free

For the term of your Subscription contract, you're entitled to receive all Autodesk MotionBuilder software releases and updates at no extra charge. Autodesk Subscription with Gold Support protects your investment by helping you stay competitive with the latest updates.

Feature Extensions

Stay ahead of the competition

Feature-rich extensions are available exclusively to Subscription members. Released periodically, downloads for MotionBuilder software provide you with new, specialized functionality. Benefit from leading-edge capabilities and convenient implementation without disrupting ongoing projects.

Exclusive License Terms

Hassle-free and flexible

Never miss a beat! Only Subscription members are entitled to use previous versions of MotionBuilder software concurrently with the upgrades, in order to access new functionality in the newest release. That means you can keep working on all projects seamlessly.

(continued on other side)

Learning Resources

Get up to speed quickly

Give your team instant access to a complete library of high-quality, self-paced interactive MotionBuilder training. Prepared by subject matter experts, these downloadable DVDs and Version Readiness training videos help new and veteran users alike learn about new features, explore expanded functionality, and master their MotionBuilder software skill set. With on demand access via Subscription Center, you learn on your terms.

Technical Knowledge Base

Quick & easy access to solutions

The Technical Knowledge Base is a comprehensive online database of MotionBuilder technical solutions enabling Subscription members to search at any time for crucial information that can help you get the most out of your production. Advanced search capabilities give you fast access to the most relevant MotionBuilder solutions in the Knowledge Base—making it easier to find the information you want.

Telephone Support

Get what you need to stay productive

When a product-related challenge arises, you can minimize the impact by tapping into the extensive knowledge of Autodesk MotionBuilder support technicians. These experts provide easy-to-understand answers quickly. And, not only do they have their own knowledge to draw on, they also can confer with the Autodesk product development teams. Autodesk's hotline service, accessible 19 hours a day on weekdays, means you can submit questions and get answers quickly which minimizes the impact to your productivity.

Web Support

One-on-one communication with experts

With web support, you get direct, one-to-one communication with Autodesk MotionBuilder support technicians for answers to your installation, configuration, and troubleshooting questions. And you don't need to keep track of support records and email trails, because we'll do it for you!

Discussion Forums

Connect to the 3D community

Ask Autodesk discussion forums are a source for quick answers to brief technical questions about MotionBuilder software. Answers are provided by world-class Autodesk MotionBuilder support technicians. In addition, Ask Autodesk discussion forums serve as an extensive searchable database of questions and answers, solutions, tips, and tricks, and as a way to connect with other Subscription members.

Issue Reporting and Tracking

Stay productive

With the bug reporting tool, you can log issues through your support requests. Autodesk, in turn, sends you updates regarding the status of your issue. Plus, a searchable database of known issues and their hot fixes for MotionBuilder software is available through the Knowledge Base.

Predictable Budgeting

Remove financial surprises

Subscription offers an easy way to predict your software investment costs. Whether you opt for a one-year or a multi-year Subscription contract, you'll know expenses for the entire term of the contract.

What's New

Autodesk continues to develop new ways to add more value to the Subscription program. For a list of the latest feature releases, visit www.autodesk.com/subscriptionlogin
